FOOD HALL & BAR

Who are we?

GOURMET 4 is a food marketplace with quality, choice and speed at its core.

With our extensive research, it became clear that the traditional food industry was not meeting the expectations of Millennial and younger customers.

The growth of online delivery organisations like Deliveroo and UberEats has radically changed the expectations of customers.

Therefore our mission is to get these customers back into restaurants, by housing multiple, new, current food brands into one food hall.

Therefore, catering for the taste expectations of everyone.

FOOD HALL & BAR

OUR CONCEPT

GOURMET 4 transforms outdated restaurants into vibrant marketplaces, where multiple brands offer a variety of different cuisines. In these spaces, Quality Choice and Speed are paramount.

As a tech-led company, customers will be able to order via a simple-to-use EPOS self-service that communicates each dish to the appropriate brand, increasing efficiency and facilitating more custom.

The multi brand food offer will provide a dine in, food hall type experience in addition to providing a takeout option.
