

THE WATER GARDENS, HARLOW

Future Developments in Harlow.

The former GlaxoSmithKline site is to be refurbished creating over 600,000 sq ft of new space in Harlow, becoming a world-leading science campus and Headquarters for Public Health England. Phase 1 is expected to open in 2021, attracting up to 2,750 staff.

Planning permission has been granted to redevelop the town centre, which includes 440 new homes and major public realm improvements to improve connectivity. Three further residential developments, totalling 254 homes in the town centre, are also planned.
